40

Dec 17, 1903

Wilbur & Orville put down a long wooden rail for the plane to run on until it left the ground

Orville climbed into the plane & started the engine. Wilbur held one wing to keep it steady. The airplane slowly gained speed & rose into the air. It moved upward, downward & forward for 100 ft & Orville brought it down safely. 3 more flights were made that day. The longest was 852 ft. on Dec 18,

same as many others that we have done  
here. There is a great deal more to do.  
In a few months time, however, we will be  
able to offer visitors a much better  
experience.

Yours & your son's sincerely

John

1903-1907

S. W. T. Henham was Dmr. of Tx

1903

1812 Dates J-BK

Cape to Cairo railway  
completed to near ZAMBESI

Dec 17, 1903

At Kitty Hawk  
The Wright Brothers flew.

They went to beach at Kitty Hawk  
in summer of 1900; summer  
of 1901; summer of 1902.

14 June 1903

Violent thunderstorm over  
WILLOW CREEK, Oregon.

In one hour it killed more  
than 200

1903

A Winton "Bullet" outfit fitted  
with 2 four-cyl. engines  
zoomed to 70 miles/hr.

Another Winton in 1903 became  
the first to complete a transcontinental  
journey from San Francisco to  
New York.  
He now operated the largest

surprisingly fast in the country in the  
United States: 1500 miles per hour  
in contrast: 1500 miles per minute  
outpaces performance.  
(It would be the first and applied flight)  
In September 1970, the two men  
and myself made the first  
transatlantic flight.

1903

The first automobile to cross the U.S.  
took 52 days to go from San  
Francisco to New York.

1903

Orville and Wilbur Wright  
fly first practical airplane.

AD1903

Aircraft - U.S. (Wright Brothers)

1903

the first airplane flew in  
the United States.
